1: New Thinking about Career Success

Begin

2: Preparation for Careers

3: Abilities and Aptitudes

4: Personal Interests

5: Career Clusters and Pathways

6: Non Traditional Workplace Roles

7: Experiencing Careers While Still in School

8: Selecting a Career Goal

9: Post-Secondary Education Options

This would be the very first "to-do" on the homepage. It would take the user here so he can begin his first activity, by clicking begin.

MY REFLECTION

2: Preparation for Careers

Begin

3: Abilities and Aptitudes

After he's completed Activity 1, it is now able to be expanded to review his answers. The "begin" button gives him access to start Activity 2. This pattern repeats until he's completed all activities.

▼ 1: New Thinking about Career Success

ACTIVITY RESULT

This is where the Mentor would write feedback to the Mentee's reflection. Same idea-- activities are accessible once complete and able to be opened/condensed. Notice order of sub-tabs within Mentee tab. There is still a message tab for that intro message. This encourages more discussion, perhaps. Also, the last activity should be a forced thank you "message."
